**FOR IMMEDIATE RELEASE**

## **DOUBLETAP™ DEFENSE, LLC, CHOOSES AZIMUTH TECHNOLOGY, LLC, AS MANUFACTURING PARTNER**

*State-of-the-art Naples, Florida-based manufacturing facility, Azimuth Technology, will produce the highly-anticipated DoubleTap™ Tactical Pocket Pistol*

**ST. LOUIS, MO (November 7, 2012)** - [DoubleTap™ Defense, LLC](http://www.doubletapfirearmsllc.com) announces today that it has chosen Florida-based [Azimuth Technology, LLC](http://www.azimuthtechnology.com) to manufacture the DoubleTap™ concealed carry pistol. The DoubleTap Tactical Pocket Pistol was introduced at the 2011 NASGW show in Reno, Nevada.

“When we announced that DoubleTap was looking for a new manufacturing partner [October 2012], we were pleasantly surprised by the positive response from the firearms manufacturers and other precision manufacturing companies,” Ray Kohout, inventor and founder of DoubleTap™ Defense commented. “Our industry has been very supportive of the DoubleTap project and we are ultimately grateful. Out of all the responses we received, it became very clear that Azimuth Technology was the perfect fit in corporate philosophy, facility capability and plain, old-fashioned, roll-up-your-sleeves determination to bring this product to market in a timely fashion.”

The ultra-compact, no-slug, pistol in .45 or 9mm built on titanium or aluminum frames was well received by both industry media and firearms distributors with initial orders in the tens of thousands.

Azimuth Technology of Naples, Florida, is a state-of-the-art precision contract manufacturing facility. Azimuth produces products for various industries

including defense, aerospace, oil/gas and many others. The Azimuth Technology facility boasts over 60 of the newest CNC precision machines capable of handling lot sizes from a mere 100 pieces to 1 million.

Azimuth Technology, founded by Len E. Zaiser and Len E. Zaiser IV, has over 50-years of manufacturing and business experience. Len Zaiser Sr. has founded seven different manufacturing companies that have employed thousands of people throughout his highly successful career. Len Zaiser Jr. is the President and co-founder of Azimuth Technology and former founder and co-

founder of several area businesses.
